The International Education section annual business meeting was held March 16, 2011 at the annual ISA conference in Montreal. Members were informed that the section had been successfully rechartered for March 2011-March 2016. As part of the rechartering process which took place during the spring and summer of 2010, a membership survey was conducted to ascertain member interests for the section, new by-laws were drafted, circulated and adopted through an email ballot, and the section postings on the ISA website were updated. The new by-laws were reviewed by members during the business meeting.

Section members discussed updates on topics of interest from the 2011 ISA Governing Council. Possible activities for the section were considered. The membership survey conducted during the rechartering process indicated members favored the section to continue promoting ISA annual conference programs and panels and also were interested in possibly beginning a section newsletter.

ISA Program participation for 2010 and 2011:

2010 – International Education sponsored 11 panels, 5 roundtables

2011 – International Education sponsored 13 panels, 3 roundtables (6 co-sponsorships)

BISA-ISA 2012 Conference Participation: Each ISA section is allowed to sponsor a panel as part of the joint conference to be held in Edinburgh, Scotland June 20-22, 2012. The International Education sponsorship is “Exploring Diversity in the Discipline: The Role of Dual Mater’s Programs in International Education Partnership” with Dr. Heidi Hobbs, North Carolina State University as chair. Joining Heidi will be Dr. Robert Guerrina, University of Surrey, and Dr. Cheasung Chun, Seoul, South Korea.

Promotion of Teaching and Learning Activities: International Education and Active Learning sections are working together to promote support for Teaching and Learning Activities within ISA. Other sections have been asked to consider panels or roundtables related to pedagogy and student learning in hopes of developing a syllabus bank on the ISA website with the possible inclusion of other teaching materials. Members of both sections were solicited for suggestions for other activities which might be proposed for the ISA Long-Range Planning Committee.

Links to the U.S. Department of Education Undergraduate International Studies and Foreign Language program: The section has had a longstanding relationship with the Department of Education. Meetings of UISFL Project Directors are often held in conjunction with the ISA Annual Conference and that practice will continue in 2012 at the ISA Annual Meeting in San Diego. Christine Corey, U.S. Department of Education Senior Program Officer, highlighted a variety of grant opportunities available to institutions of higher education to promote campus internationalization.

Section Membership has grown from 36 members in spring 2005 to 95 members currently.
